

**The Society for
Financial Studies**

President

Wayne Ferson,
Boston College

Vice President

Maureen O'Hara,
Cornell University

Secretary/Treasurer

Mark Weinstein,
University of Southern
California

Information for authors. The journal publishes significant new research in financial economics, striving to establish a balance between theoretical and empirical studies. The principal criteria for inclusion are a paper's quality and contribution to the field of finance, without undue regard to its technical difficulties. Manuscripts are accepted for publication on the understanding that they have been submitted solely to *The Review of Financial Studies* and that they have not been previously published either in whole or in part.

Copyright. It is a condition of publication in the journal that authors assign copyright to the Society for Financial Studies. However, all requests for permission to reproduce should be sent to Oxford University Press. This ensures that requests from third parties to reproduce articles are handled efficiently and consistently and will also allow the article to be as widely disseminated as possible. In assigning copyright, authors may use their own material in other publications provided that the journal is acknowledged as the original place of publication, and Oxford University Press is notified in writing and in advance.

Manuscript preparation. Manuscripts should be typewritten using double-spacing throughout, including tables, references, and footnotes. Manuscripts (text, references, tables, figures, etc.) should be prepared in detailed accord with the current edition of *The Chicago Manual of Style*. Assemble sections in the following order: Title page, Abstract, Text, Figure legends, Appendices, References, Footnotes, Tables, and Figures. Electronic submissions must be submitted via the journal's web page at www.rfs.org. Electronic submissions must be submitted as PDF files and must be anonymous. Alternatively, three printed copies (and if possible a copy of the computer file used to create the manuscript) can be mailed to Matthew Spiegel. For manuscripts sent via the postal service the address is Yale School of Management, *The Review of Financial Studies*, P.O. Box 208200, New Haven, CT 06520-8200. For manuscripts sent via private carrier (e.g. Federal Express, DHL, etc.) the address is Yale School of Management, *The Review of Financial Studies*, 135 Prospect St., New Haven, CT 06511. Tel: 203-432-0361.

Authors should be aware that the electronic file is considered final material. Author changes may not be made during the copyediting stage (following acceptance, but prior to typesetting).

Manuscripts should be accompanied by a submission fee of \$175 for electronic submissions by members of the Society for Financial Studies. Nonmembers will be charged an additional \$50 (\$225); this will *not* include a free subscription to the journal. Any nonelectronic submission will be charged an additional \$25. Payment may be made by Visa, Mastercard, Discover, or Diner's Club. The cardholder's name, credit card number, and expiration date must be included with the submission; also please note whether the author is a member of the Society for Financial Studies. Checks are also accepted for payment of the submission fees; please make them payable to the journal.

The *Title page* should include the title, name(s) of the author(s), and institutional affiliation for each author. It should also include name, address, telephone number, and e-mail address of the author responsible for correspondence as well as the name and address of the author to whom requests for reprints should be sent. Page numbering should begin on this page.

Each article should include an *Abstract* of no more than 100 words, beginning on a separate page. The *Text* should also begin on a separate page. The first numbered section should follow the introduction of the article. References should be cited in the text by author's last name and the year of publication. *Footnotes* should be kept to a minimum and placed at the end of the text, beginning on a separate page, double-spaced. They should not be placed at the bottom of the page on which they are cited. Do not number author affiliations or acknowledgments of support or assistance. *Equations* should be numbered consecutively with Arabic numerals.

Tables should be typewritten, each on a separate page, and numbered sequentially with Arabic numerals; each should have a brief, descriptive title; each should be designed to fit on a page without undue compression. Vertical rules should not be used. They should be as self-explanatory as possible, incorporating any necessary descriptive material in an unnumbered footnote.

Figures should also be numbered consecutively with Arabic numerals. All explanatory material should be included in the legend and not in the figure itself. Submit review copies of each figure with the manuscript. All artwork and typography should be of professional quality. Typewritten or hand-drawn figures are not acceptable. *Figure legends* should be typed together on a separate sheet double-spaced. Starting July 1, 2005 *The Review of Financial Studies* will accept color figures. There will be a \$600 fee per color figure file. This fee covers the journal's costs.

Creation and format. Figures should be created as Encapsulated Postscript (.eps) or Tagged Image Format (.tif) files at resolutions of 300 dpi (dots per square inch) for photographic and color images or 600 dpi for black and white line drawings. Use CMYK colors only. PowerPoint may also be used for graphs only. Please use high-resolution original sources, such as scanned original artwork or original image files, to create your .tif or .eps figures, with fonts embedded. For EPS submissions, please use the following fonts only: Arial, Courier, Times New Roman, Helvetica, and Symbol.

Even when saved as .tif or .eps files, graphics downloaded or saved from Web pages (and other low-resolution materials) will not meet print quality standards and are therefore unacceptable for figure creation. Blurry, illegible, or other low-quality figures will be returned to you for recreation and may delay publication of your paper.

We recommend that you produce your figures with high-quality graphics software, such as Adobe Photoshop, to help ensure appropriate resolution and workability. For instructions on how to use Photoshop and other supported graphics software to prepare figures, please visit <http://cpc.cadmus.com/da/applications.asp>. If the software available to you cannot generate .tif or .eps files, you may wish to print a high-quality copy of the figure, scan it, and then save it as a .tif. For instructions on scanning, please visit <http://cpc.cadmus.com/da/scanning.asp>.

For useful information on preparing figures visit <http://dx.sheridan.com> where you can also test whether your figures are suitable for production by using the preflight tool at <http://dx.sheridan.com/onl/>.

References should be typed entirely double-spaced and begin on a separate page. They should be in alphabetical order, unnumbered, and follow the current edition of *The Chicago Manual of Style*.

For more information, please visit the RFS Web site at www.rfs.oxfordjournals.org.
